From: Center for Mental Health in Schools at UCLA

Re: TODAY'S RESOURCE (9/13/05) – Hurricane Aftermath

Schools now need to think about plans and actions for helping student deal with loss.

Attached is a set of guidance notes we hope will be useful.

You may also want to download the Center packet entitled: Responding to Crisis at a School – <http://smhp.psych.ucla.edu/pdfdocs/crisis/crisis.pdf> It has a variety of fact and activity sheets.

Feel free to forward the resources.

And, share what you are doing.
