WHAT IS ENEWS? (for those who don't know)

This forum is another link for those concerned with enhancing policies, programs, and practices related to addressing barriers to student learning and promoting mental health in schools. It augments the other ways our Center shares information and facilitates interchange and networking.

**EMERGING ISSUE**

>>>The impact of changes in a federal law on students

>From the Los Angeles Times (1/4/98): "Bolstered by recent changes in a federal law [IDEA], an increasing number of students in regular classes are trying to avoid expulsion by declaring that the system has failed them. School officials, however, say that the rules for assigning students to special education programs are being overused and misapplied."

A quote from a hearing officer states: "The new federal law appears to grant students not yet eligible for special education much greater protection (than State laws). So now we have two bodies of law (and this)... makes the matter much more complicated."

(If you are interested in the new regulations, you can read all 300+ pages at http://www.lllrp.com/Education/newed5.htm)

How is this issue playing out in your locale? Any lessons learned to share?

Let us hear from you. We will include responses in the next ENEWS and/or on
In response to last month's "Emerging Issue -- Controversies Re. School Districts Contracting Out Services," Mike Furlong from the Graduate School of Education at the University of California, Santa Barbara sent in the following comments:

I have more horror stories to tell about contracting out for psychological services than you care to hear... Our children deserve comprehensive coordinated programs, not the piecemeal effort borne of contracting. Schools also deserve to have individuals who have professional training in working within school systems. School-based mental health services that merely transport psychological services from the community clinic to a school-based clinic are not the answer. Many districts are now using funds to hire unlicensed or credentialed personnel to carry out many of the guidance and psychological service functions of schools. These programs often lack continuity in personnel and focus. We need many sources of support for children, but there needs to be a school-based coordination of services that provides the glue that holds the program together. Contracting has it place, but I can tell you that it is usually not used wisely and there is absolutely no oversight of these contractual arrangements. You may also be aware that in California AB3029 was passed a number of years ago that requires that school district hire credentialed school psychologists to provide on-going psychological services. If a credentialed school psychologist is unavailable, districts can contract with a Licensed Educational Psychologist, while they document their continuing efforts to locate a permanent employee. If there is a chance or place for further discussion about this matter, please let me know.

=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-
Lucia Berman-Rossi notes:

"In Boston it seems most schools contract out for services. It is rare for social workers to be paid by the school system. This speaks to the lack of importance placed on social work services in the schools. It is hard for social workers to fully do their jobs and become assimilated into the school if they are only being paid for 'direct service'. This doesn't give them the opportunity to show schools what they really could do had they been a real part of the school -- attending staff meetings and student related meetings."

Other information on this issue comes from Australia via the Extra Edge Program Newsletter ("Starlink"). In an article describing a new collaborative initiative between the Dept. of Education and the Youth Services Branch of the Dept. of Human Services, it is noted that a major feature involves service purchase for filling "gaps in service availability as identified by the school and community." It will be instructive to follow how this initiative plays out. For more information, contact Sue James in Victoria at (03) 9637-2474; email:soup@onaustralia.com.au

WANTED: Examples of Public Involvement in Public Education. The Annenberg Institute for School Reform (AISR) is seeking information about groups that are engaging local educators, parents, business leaders, and other community members as advocates in improving public schools. The aim is to connect those who are doing the work of public engagement to useful resources that can strengthen the capacity of schools and their communities to improve public education. For more information and an application form, contact: The Annenberg Institute for School Reform at Brown University, Box 1985, Providence, RI 02912, phone:(401)863-1714, web: http://www.aisr.brown.edu/html/new.html.

>>>> Wanted: nominations for quality school based programs that emphasize social and emotional learning skills for review. The Collaborative for the Advancement of Social and Emotional Learning (CASEL) is currently conducting a review of school-based programs that emphasize social and emotional learning skills (e.g., awareness of emotions, management of feelings, social problem solving, communication skills, interpersonal social skills, prosocial attitudes and values). They are open to a wide range of
programs including prevention programs (e.g., substance abuse, violence, conflict resolution, high risk sexual behavior, injury prevention), social competence promotion, comprehensive health education, character education, and career education. If you know of a quality program, please forward the name of the program and contact information to sbose@uic.edu. The findings of this review will be disseminated nationally in a published guide, so educators can make an informed choice when selecting programs for their schools.

For more information about this project and CASEL, visit their web page at: http://www.cfapress.org/casel/casel.html or write: CASEL, Department of Psychology (M/C 285), The University of Illinois at Chicago, 1007 West Harrison St. Chicago, IL 60607-7137, Phone: 312-413-1008, Fax: 312-355-0559

>>>Ongoing REQUEST: The Mental Health Section of the National Assembly on School-Based Health Care (NASBHC) is asking for any materials or model program descriptions -- specifically relevant to school-based mental health and psychosocial efforts -- that deal with the topics of

>>>>>>Financing (pros & cons of ways programs are funded)
>>>>>>Quality Assurance/Evaluation (upgrading programs, demonstrating results)
>>>>>>Program/Service Integration (how mental health activity is integrated with related efforts at the school and in the community)

Such information will be collated for use as part of workshops to be held in conjunction with the NASBHC's 1998 Conference (see our website for the date and location).

Send any information directly to our Center and we will forward it.

CALL FOR PROPOSALS AND PAPERS

The 21st Century Community Learning Centers Program

As part of President Clinton's child care initiative, this program will be expanded by $800 million over 5 years and provide after-school care for half million children. The USDOE in conjunction with the Nat. Community Education Assoc.
& the Nat. Center for Community Education is offering a series of 1 day regional workshops for people who may apply for grants related to this program. Workshops will be held in Boston & Atlanta on Feb 2, New York & Dallas on Feb 4., Los Angeles & Chicago on Feb. 9th, Seattle & Flint on Feb. 11, Denver on Feb. 13. For details and registration (due 1/26) see: http://www.ed.gov/offices/OERI/21stCCLC/chart2.html

The Corp. for National Service has announced 1998 funding for the new AmeriCorps*VISTA program grants for volunteers to coordinate America Reads Challenge Federal Work-Study programs. Contact: AmeriCorps*VISTA, Corp. for National & Community Service, 1201 New York Ave., NW, Washington, DC 20525 (202)606-5000, ext.249,TDD(202)565-2799 or TTY(800)877-8339.

Seymour Sarason tells the following:

When Claude Pepper (the late congressman) arrived in heaven, he asked God: "Will the U.S.A. ever have national health insurance?"
God pondered the question and finally said: "Yes, but not in my lifetime."

HELPFUL WEBSITE and LISTSERV RESOURCES

The following website has been brought to our attention:

>>>Building Coalitions<<<
http://www.ag.ohio-state.edu/~ohioline/lines/kids.html

The Ohio Center for Action on Coalitions has a series of "fact sheets" about building coalitions. It is very accessible, and could offer useful starting points or discussion papers for any groups looking at establishing collaborative approaches. At this site, browse other documents on line.

You can also link to other mental health related
sites from our Website -- at our new address
http://smhp.psych.ucla.edu

(If you haven't visited our site lately, click on "What's New"
-- we add new materials every couple of weeks).

If you have favorite sites you think others would find
useful, let us know.

for a Clinical Services Supervisor and a Youth Services worker
(open to LCSW/MFCC/Ph.D.). Contact: SCMH (916) 225-5925.

>>>Professor of Education & Social Policy, Northwestern University<<<

The School of Education and Social Policy and Institute for
Policy Research at Northwestern University are looking for a highly qualified candidate who can contribute to the research and teaching mission of the school and the policy research mission of the Institute. (Someone with expertise in child development as it relates to the issues of family, poverty and welfare reform, education and/or the urban environment.) Contact: Greg J. Duncan, Search Committee Chair, School of Education and Social Policy, Northwestern University, 2115 North Campus Dr. Evanston, IL 60208. (by February 15, 1998)

Scott Adams' Definition and Law of organizations:
An optimist is simply a pessimist with no job experience.
Pessimism increases steadily over a career until the tenth year and then remains constant.
Just hired: "Great idea! Let's start right away!"
Five years experience: "We tried that idea five years ago. It didn't work then and it won't work now."
Ten years experience: "We're all going to die ... die or go to jail ... It's the end of life as we know it ..."

^^^^NEWS FROM OUR CENTER AND OUR SISTER CENTER^^^^

^^^^From the Center's Clearinghouse ...

*****EVALUATION AND ACCOUNTABILITY

In our ongoing efforts to update and enhance the usefulness of our resources, we have revised our introductory packet on Evaluation and Accountability. It now contains: (1) Two clearinghouse briefs on evaluation, accountability, and quality control as directly related to mental health in schools, (2) an overview of a few basic resources (references, guidebooks/models, agencies, websites, and individuals providing technical assistance), (3) an evaluation flowchart, and (4) two reports from the Center for School Mental Health Assistance based on their critical issue planning sessions on quality assurance and documenting effectiveness of school mental
health programs.

*****NEW WEBSITE ADDRESS

Once again, please note that our new address is

http://smhp.psych.ucla.edu

We’ve added a lot of new resources. The site provides direct access to center materials, information about where to get other resource materials, newsworthy announcements, continuing education modules, technical assistance, articles and references, information on hotlines, and also provides a gateway to other relevant sites.

We keep adding to and improving the site -- so plan on visiting regularly.

NEWS FROM OUR SISTER CENTER --
The Center for School Mental Health Assistance at the University of Maryland at Baltimore

For those who wish to be on their mailing list, contact:
CENTER FOR SCHOOL MENTAL HEALTH ASSISTANCE (CSMHA)
University of Maryland at Baltimore, Department of Psychiatry,
680 West Lexington Street, 10th fl., Baltimore, MD 21201-1570
(888)706-0980 FAX: (410) 706-0984
csmha@csmha.ab.umd.edu http://csmha.ab.umd.edu/

CSMHA is a national training and technical assistance center
designed to promote the expansion and improvement of mental health services for school-aged children and youth. Director: Mark Weist, Ph.D. Co-Director: Bernice Rosenthal, M.P.H. Program Coordinator: Marcia Glass-Siegel, MSS, LCSW-C.

Like our center, CSMHA is supported by Maternal and Child Health Bureau, Office of Adolescent Health, HRSA, U.S. Dept. of Health and Human Services.

CSMHA will hold its 3rd National Conference on Advancing School Mental Health on Sept. 25 & 26, 1998 in Virginia Beach. Anyone seeking to present at the conference should submit their proposal to the center by February 6, 1998 by mail, FAX, or e-mail.

IS THERE ANYTHING YOU’D LIKE US TO INCLUDE IN THE NEXT ISSUE?

THIS IS THE END OF THIS ISSUE OF ENEWS

Below is a brief description of our Center.

WHO ARE WE?

Under the auspices of the School Mental Health Project in the Department of Psychology at UCLA, we operate the Center for Mental Health in Schools. The Project and Center are co-directed by Howard Adelman and Linda Taylor and coordinated by Perry Nelson and Judy Onghai.

Our group at UCLA approaches mental health and psychosocial concerns from the broad perspective of addressing barriers to learning and promoting healthy development. Specific attention is given policies and strategies that can counter fragmentation and enhance collaboration between school and community programs.

We are involved in model development and implementation, training and technical assistance, and policy analysis. Our activities include gathering
and disseminating information, materials development, direct assistance, and facilitating networking and exchanges of ideas.
