ENews -- A Monthly Forum for Sharing and Interchange

Source: UCLA SCHOOL MENTAL HEALTH PROJECT/ CENTER FOR MENTAL HEALTH IN SCHOOLS

October, 1999 -- (Vol 4, # 1)

WHAT IS ENEWS? (for those who don't know)
This forum is another link for those concerned with enhancing policies, programs, and practices related to addressing barriers to student learning and promoting mental health in schools. It augments the other ways our Center shares information and facilitates interchange/networking.

FEEL FREE TO FORWARD THIS TO ANYONE.

WHAT'S HERE THIS MONTH

**Emerging Issue
> Can you prove that what you do is effective?

**News from around the Country

**Recent Publications Relevant to
> Risk, Protective Factors, & Youth Development
> Childrens’ Mental & Physical Health
> Safe & Drug Free Schools

**Upcoming Initiatives, Conferences, Workshops

**Call for Proposals and Papers

**Helpful Resources

**Job Announcements

**Internships & Postdoctoral Training

**Comments/Requests/Questions from the Field

**News From Our Center and Our Sister Center

***EMERGING ISSUE***

>>>Can you prove that what you do is effective?<<<

Accountability, results-orientation, empirically supported treatment, etc. etc.
No professional means to do bad work. Most professionals believe they are
working in the best interests of those they serve. But, increasingly, practitioners
are confronted with the problems of:

**What constitutes proof that what is being done is worth doing?**

**And is the intervention worth the investment?**

Related to this is the growing concern that funders are pushing practitioners toward
a limited list of “approved” interventions?

And, what’s not being discussed is: If you are asked to rely on practices for which there is
supportive research, is there a sufficient range of approved practices for dealing with
the range of concerns presented by those you serve?

Given the implications of all this, we hope you will take some time to share your
perspectives?

You can post your response directly on our website for
others to read and respond to or you can send it to:

***NEWS FROM AROUND THE COUNTRY***

>>National centers focused on enhancing MH in schools begin 5th year<<
As our Center at UCLA and our sister center in Baltimore move into a 5th year of operation, we
want to remind everyone about the range of resources available to anyone who wants to ask.
Many who receive this electronic newsletter appear unaware that they can sign up to receive our
regular topical Newsletters, download a variety of resources from our website
(http://smhp.psych.edu), and avail themselves of technical and training opportunities. See contact
information in this issue of ENEWS.

>>Preventing Mental Health Problems in School-Age Children<<
Preventing Mental Disorders in School-Age Children: A Review of the Effectiveness of
critical themes in prevention research and summarizes state-of-the-art prevention. The document
covers over 130 programs. Published by Prevention Research Center for the Promotion of Human
Development, College of Health and Human Development, Penn State University. Download
New Initiative: National Academy of Sciences
The Board on Children, Youth, and Families and its Forum on Adolescence will establish a committee to review and synthesize existing evidence regarding community-level initiatives and interventions designed to promote positive developmental outcomes among youth. See website: www.nationalacademies.org/cbsse/bocyf.

Research Brief: Reducing Crime in Schools

Research Brief: Role of Depression in Adolescent Female Delinquency
U.S. Department of Justice previews (July 1999) a study by the Project on Human Development in Chicago Neighborhoods (PHDCN) investigating the role of depression in development of antisocial behavior among girls. Preliminary results suggest that depressed girls are more likely to commit crimes than their nondepressed counterparts. See: www.ojp.usdoj.gov/nij.

Memphis City Schools Moves to Restructure Support Services and Expand School Reform
The September 1999 issue of "Pathways" -- a publication for employees of Memphis City Schools -- reports on the district’s new Department of Student Support (formerly the Department of Student Programs and Services). Memphis is the first school district in the country to move forward with an extensive restructuring of student support programs. The new operational plan emphasizes that effective school reform must include not only a focus on reforming instruction and governance/management, but must include a component for addressing barriers to student learning as a primary and essential facet of school reform. For more information, contact the new department at (901) 325-5628.

NIH Establishes Five Mind-Body Research Centers
NIH has awarded $10 million in 1999 to fund five centers that will support research on mind-body interactions and health. The centers will focus on research that seeks to understand how beliefs, attitudes, values and stress affect physical and mental health. The locations of the centers are: U. of Pittsburgh, U. of Michigan, U. of Wisconsin, U. of Miami, Ohio State U. Contact: Susan Persons 301/402-1146.

Department of Education's New Clearinghouse
The department's Office of Educational Research and Improvement (OERI) has created the National Clearinghouse for Comprehensive School Reform to provide research and evaluation of reform designs, models, and strategies. Info will be provided through databases, a web site, and an electronic and quarterly newsletter. See: http://www.ed.gov/offices/OERI/csrrdp.html

New Substance Abuse and Mental health Services Administration's (SAMHSA) Center for Mental Health Services (CMHS)Grants
More than $43 million in mental health services grants open to communities across the country. Programs range from promoting the best practices in delivering services to Hispanic communities to funding a national training and technical assistance center for children who are at-risk for emotional disturbances. Contact Shelly Burgess 301/443-4765.

Drug and Safety Coordinators in Middle Schools
$35 million in grants for 97 school districts to recruit and train middle school drug prevention and school safety coordinators. See: www.ed.gov/offices/OESE/SDFS/safeschools.html

INTERNSHIPS & POST DOCTORAL TRAINING

Predoctoral Internships in Professional Psychology
The Kansas Psychology Training Consortium (KPTC) is offering a broad range of training with diverse clinical populations and

***COMMENTS/REQUESTS/QUESTIONS***

>>Request: Dr. Arun Kishore of the Thrissur Medical College in Kerala, India is involved in running a School Mental Health Program and is interested in exchanging ideas with individuals involved in similar programs. Dr. Kishore can be emailed at: akki@vsnl.com.

>>Comment: In response to our request for feedback about topics for future issues, Dr. Patty Gates of the Children's Mental Health Advocacy Project had the following to say: "I think it's imperative that folks in the field of education become familiar with the various personality disorders that can cause such grief for everyone concerned. Often, the mental health community will not "label" anyone with a personality disorder before they are 18 and many times this is a grave mistake... One leading clinical psychologist has stated that the leader in the Columbine massacre was undoubtedly Paranoid Personality Disordered and his accomplice Dependent Personality Disordered... We need to be educated!"

***NEWS FROM OUR CENTER AND OUR SISTER CENTER***
(Support for the Centers comes in part from the U.S. Department of Health and Human Services, Public Health Service, Health Resources and Services Administration, Maternal and Child Health Bureau, Office of Adolescent Health.)

^^^FROM the CENTER for MENTAL HEALTH in SCHOOLS, UCLA:

*****New Center Report<<<<
EXPANDING EDUCATIONAL REFORM TO ADDRESS BARRIERS TO LEARNING:
Restructuring Student Support Services & Enhancing School-Community Partnerships
Discusses the need to restructure student support services and fully integrate them with school support; highlights the importance of weaving school and community resources together; discusses the need to rethink how school board’s deal with these matters.

****Join in the Discussion on Youth Development and Addressing Barriers to Development and Learning

We are having a lively Internet discussion (via Listserv and the Interact page on our website) about youth development and barriers to development and learning. Our hope is that this interchange will help participants minimize future debates that oversimplify policy concerns. From our perspective, debates pitting youth development against the idea of also addressing barriers to development and learning tend to misdirect energy that is needed to deal with more central policy
concerns. We agree that a major commitment to enhancing child and youth development efforts and improving instruction is crucial. But, effective prevention also requires direct and comprehensive action designed to remove or at least minimize the impact of major external and internal barriers. It seems clear that we all share the responsibility of promoting healthy development AND addressing barriers. To us, these seem to be both sides of the same coin. See "interact" on our website and tell us your ideas.

As fast as we can, we are adding our materials for Internet access (in PDF file format for easy downloading). Refer to the resources section of our web site for directions on downloading.

FOR THOSE WITHOUT INTERNET ACCESS, ALL RESOURCES ARE AVAILABLE BY CONTACTING THE CENTER.
Let Us Hear From You:

---IS THERE ANYTHING YOU'D LIKE US TO INCLUDE IN THE NEXT ISSUE?---
THIS IS THE END OF THIS ISSUE OF ENEWS
Below is a brief description of our Center.

WHO ARE WE?

Under the auspices of the School Mental Health Project in the Department of Psychology at UCLA, we have established a Center for Mental Health in Schools. The Project and Center are co-directed by Howard Adelman and Linda Taylor.

Our group at UCLA approaches mental health and psychosocial concerns from the broad perspective of addressing barriers to learning and promoting healthy development. Specific attention is given policies and strategies that can counter fragmentation and enhance collaboration between school and community programs.

We are involved in model development and implementation, training and technical assistance, and policy analysis. Our activities include gathering and disseminating information, materials development, direct assistance, and facilitating networking and exchanges of ideas.

For more information about the Center or about ENEWS, contact Perry Nelson, Howard Adelman, or Linda Taylor at UCLA School Mental Health Project/Center for Mental Health in Schools
