Grant Parish School Board

Comprehensive Learning Supports

To accomplish the mission and educational goals set forth for our students, it is essential that all students have an equal opportunity for success at school.

Comprehensive Learning Supports is a framework to help ensure all students, families and teachers have the supports needed to be successful by addressing physical, social and emotional factors that interfere with learning and teaching.

Connecting School, Community, and Family Resources

Learning Supports is a means for connecting schools in Grant Parish with community partners, churches and other available resources in order to assist students, families and teachers. Through these partnerships, supports are designed to involve all parties in the educational process. For schools to be successful, there has to be a focus on students' social, economic and family needs, in addition to their academic needs. This can only occur through the support of the whole community working together to ensure student and family success. We invite you to take an active role developing and implementing supports to assist our students, families and communities.

What Does A Comprehensive Learning Supports System Look Like?

Activities have been grouped into six arenas that serve as the Comprehensive Learning Supports blueprint. These content arenas detail the way schools address barriers to learning by developing activities and interventions in each of the categories.

Classroom-Based Approaches

- ⇒ Enhancing regular classroom strategies to enable learning.

Support for Transitions

- ⇒ Supporting transitions in grade-level, schools, communities and families.

Family Involvement and Engagement in Schooling

- ⇒ Increasing family and school connections.

Crisis Assistance and Prevention

- ⇒ Responding to, and, where feasible, prevent crises.

Community Outreach for Involvement

- ⇒ Increasing community involvement and support through the use of volunteers.

Student and Family Assistance

- ⇒ Facilitating student and family access to effective services.

Anticipated Outcomes

- ⇒ Increase available resources for students and their families.
- ⇒ Increase community involvement in schools.
- ⇒ Develop 21st Century skills such as teamwork, responsibility, collaboration and problem solving.
- ⇒ Reduce student dropout rates.
- ⇒ Increase graduation rates.
- ⇒ Re-engage students in classroom learning
- ⇒ Narrow the achievement gap.
- ⇒ Increase student attendance.
- ⇒ Reduce discipline referrals.
