

## Outline What Has Been Learned so Far

Use this worksheet to develop a brief outline describing the various ways that schools can provide specialized assistance for problems students and families are experiencing.

To help organize your response, think in terms of the following:

(1) What ways might the school respond when a student is not learning well or is a frequent behavior problem or often seems emotionally upset?

(2) What ways might the school help when a student/family is so poor that the student does not have adequate clothing, food, and school supplies?
