A tool for mapping and planning

Survey of Learning Supports System Status

As a school sets out to enhance the usefulness of learning supports designed to address barriers to learning, it helps to clarify what you have in place as a basis for determining what needs to be done. You will want to pay special attention to

- clarifying what resources already are available
- how the resources are organized to work in a coordinated way
- what procedures are in place for enhancing resource usefulness

This survey provides a starting point.

The first form provides a template which you can fill in to clarify the people and their positions at your school who provide services and programs related to addressing barriers to learning. This also is a logical group of people to bring together in establishing a resource-oriented team for learning supports at the school.

Following this is a survey designed to help you review how well systems for Learning Supports have been developed and are functioning.
**Survey of Learning Supports System Status**

Items 1-9 ask about what processes are in place.

Use the following ratings in responding to these items.
