Adopting a Unifying and Comprehensive Framework for the Behavioral and Mental Health and Well Being of Children and Youth in Hawaii

Pearl City Cultural Center (Facing Waimano Home Road in front of Pearl City High School)
2100 Hookiekie Street
Pearl City, HI 96782

8:00-3:30pm LUNCH PROVIDED

Purpose: As we move forward into a struggling economy, and have been relieved from the federal oversight of Felix, agencies that provide behavioral and mental health services face new challenges due to budget reductions and interagency understanding of how we meet the behavioral and mental health needs of children, youth and families. The resources for system building come from redeploying and weaving together school and community resources (including family and social capital). The process must be guided by a carefully defined and broad intervention framework and an operational infrastructure that is designed to develop, implement and sustain our system.

Hawaii offers a unique hybrid mental health model for children and youth. Because the state organizational cultures vary, it is critical that we gather to participate in defining a unifying and comprehensive framework to address the roles, responsibilities, and terminology of each agency and the staff of these agencies who play important roles in the delivery of behavioral and mental health services.

Target Audience: Participants include each person working with or on behalf children and youth through SBBH, CAMHD, School based services through Tripler, Community Health Centers, youth, families, and other stakeholders who are committed to adopting a unifying and comprehensive framework to address child and adolescent behavioral and mental health needs.

Presenters:

**Dr. Howard Adelman and Dr. Linda Taylor
from the UCLA School Mental Health Project**

Host: Kelly A. Stern, State Program Manager for SBBH DOE

Panel Presenters:

- Ivalee Sinclair, parent and community advocate
