

Brief Report from Tuscaloosa City Schools (11/5/14)

“We are now a part of the cohort and have had several trainings. We have done mapping with district administrators. Our eastern cluster schools (1 High School, 1 Middle School, and 4 Elementary Schools) were already collaborating with each other, so we decided to begin with them. They have been asked to do mapping. It will be interesting to compare what the district has with what the schools list. We are excited about the prospects.”
